Only One School to Be Built, Marlin, Texas, March 26. The city council-this morning rescinded the order passed yesterday to purchase locations in the eastern and western portions of the city and to erect two public school buildings. The council today decided to creet only one hilding and to locate same on the old site, also purchasing and adding to the grounds what are termed the Underwood and Holloway properties. The school peticing will cost about \$25,000 and the intertion is to have it ready by the next term of school.

Catamounts Killed Near Caldwell. Caldwell, Texas, March 2s -E. G. Jankins, Charles Broaddus and Rob Addison on yesterday returned from a hunt near Courtnev lake about ten miles south of Ca'diwell. Write out they caught and milled
with their dogs two large catamonats, a
male and a female. They were brought
to Caldwell and were exhibited to a minber of people.
Cimon Wood and other parties from near
Lyens were also on the hunt.

11,000,000 BARRELS OF OIL

flave Aiready Been Taken Out of the Spindle Top Wells.

TWO MORE SPOUTERS ON THE LIST.

A New Test Made of the Gusher at Sour Lake Which Was Entirely Satisfactory.

Beaumont: Texas, March 27 .- Twenty-six days of March show all shipments aggregating 4166 cars, against 4007 cars for the aftre month of February.

Nearly every day proves the tallney of ome one of the minny prophecies made by e entists and oil experts concerning the Beaumont field. Last fall Mr. C. F. Z. Caracristi, scientist and oil expert, made the prediction that 10,000,000 harrels would Has Been Referred to Colonel Lanham be the ultimate production of the Spindle of ell have already been drawn from the wells; and even now a well occasionary Creaks something and runs wild.

+++ Two more new sponters were added to he list today, making thirty-six in during states that Colonel Lanham has no cam-March and a fotal of 210 in the neid. The Enterprise Oil company brought in thorized to arrange for his cumpaign, but a six-inch well on block 38, which spouted that the suggestion will be brought to the learn without building. It is reported to be a attention of Colonel Lanham, in which tent

line producer.
P. M. Lea & Son brought in a sixinch spotter on black 38, but the driller in charge did not know the owners of the

Contractors Fondren & Werley, drilling on block 22, pulled the top of their derrick in late vesterday afternoon; and a dees of the falling delets struck Mr. For dren's right arm, breaking it and ruptur-ing a blood vessel. A physician soon specked the flow of blood and the injured man is reported to be doing very well.

Oil men who saw a recent test of the Atlantic and Pacific spouter at Sour Lake say that the well did much better than at he former tests; throwing a stream of all ninety to 100 feet over the derrick. These

Concerning the well which he brought in extenday without the use of water after rell said: "The trouble with our wells in Terswed to get into the oil sand, and after drilling in one well, I concluded to drill the next one in without water, if I was possible to do so. I used a pipe extended in the derries above with valve length afforder to carry a string of bools above the T or side openings. The wire cable need for drilling passed through a hollow piston, with a stuffing box to prevent oil or gas from escapius while drilling. This arrangement can be handled by the same machinery which is used for the rotary, the inter-boing used entirely until the captock is reached, when a gauge is placed on the valve, showing the exact pressure after the water is withdrawn. Mr. Carroll thinks water should not run into the oil damage.

Following are the sales on the oil stock

Angle-American, 3000 shares at 2c.
Recky-Sharp, 5000 shares at 3kg; 200
shares at 3kg.
Detreit Beaumont, 300 shares at \$1.25.
Gold Engle, 18,000 shares at 10c.
Isobella, 1500 shares at \$1.00,
independence, 5000 shares at 3kg; 1000 ill and Pine Line, 100 shares at

Rev Petroleum, 2750 shares at 10c, Victor, 7690 shares at 29cc. Mannatian, 100 shares at 505cc.

GAS IN COLORADO COUNTY.

A Slight Showing of Oil Found in the Water. Columbus, Texas, March 27.-Consider-

Austin, Texas, March 27. Compareller Leve and State Treasurer Robbins are care paigning in Besque county this wers. Center, Texas, March 26. Jasper Collina and Judgs Brockfield, candidates for the State sensite, will make a joint canvass of Shelby county. ble excitement was caused in town this afternoon to the report that the drillers at Rocky Point in the Townsend pasture. The latest reliable reports brought to by Mr. Charles Scence show that a vein of Mr. Charles Scence show that a vein of water was struck at a depth of 1400 feet and rose to a height of thirty feet above the ground. The water was impregnated with gas, which barned in a flame of from two to five feet until extinguished.

At the time of the stike a drill was lost and later during attempts to recover the drill a small, quantity of oil came out mixed with the water.

During the past few days drilling has been in solid rock. Those in charge are consident of speedily recovering the drill and completing the well.

been in solid rock. Those in charge are consider of speedily recovering the drill and completing the well.

The Big Hill Well.

Wharton, Texas, March 25.—The democrats of Marcin country held their conventions. The only instructions made were for Hon. K. M. Love for comprisely and Hon. W. R. Smith of Colorado City for congress for the Sixteen discountry is in Wharton today. When

da county is in Wharten today. When orn by the correspondent be said: "We panies for the year 1001 is summarized as | gre having a great many backsets with our wells, water is standing in the last one new, and though we will do our best to new, and though we will do our best to save it we may be obtiged to aboutdon it. My epinion is that the two wells are too close together, the gas and water minute and the engine did not have sufficient power to work with the needed rapidity. We will probably start a new well tomorrow at about 300 feet from the last well and will use two engines in the work so as to prevent the same difficulties met with in the first wells. The indications of oil are very encouraging and we have already met with abundance of evidence that it is there in large quantities. THE STRENUOUS LIFE
